

Field Specialist- Directional Drilling

[Apply Now](#)

Company: Baker Hughes

Location: Abu Dhabi

Category: healthcare-practitioners-and-technical

Job Requirements

Would you like to work with cutting-edge drilling technology?

Do you love collaborating with teams to solve complex problems and deliver solutions?

Join our growing team

We are the leader in well construction and production. Our innovative physical and digital solutions improve efficiency, production and maximize reservoir value.

Partner with the best

As a Directional Driller, you'll run the operations of drilling sites using the latest technology.

You'll have access to innovative equipment to effectively monitor our well-sites. You will troubleshoot problems and act quickly to ensure efficiency is maintained for our customers.

As a Directional Driller, you will be responsible for:

Providing instruction and supervision to junior field engineers on day-to-day well-site work and activities

Communicating technical guidance and advice to customers and third-party well-site colleagues

Solving often complex drilling problems, by monitoring, analyzing and evaluating incidents using logging and drilling data

Following internal compliance and HSE standards to ensure a safe working environment.

Able to operate all of the surface and downhole

directional drilling equipment, including all types of surveying tools as required by CONTRACT.

Able to effectively design bottom hole assemblies to drop or build angle at various degrees of severity.

Able to operate the onsite computer services equipment to meet all the requirements of the equipment.

Able to use the jet deflection method to kick off a well.

Capable of performing all normal rig site calculations associated with directional drilling and the use of CONTRACTOR-supplied computer hardware and software.

This shall include all survey calculations, well to well clearance calculations, Ellipse of Uncertainty calculations and well path projections.

Knowledge about COMPANY's requirements regarding well clearance and proximity based on the use of Ellipse of Uncertainty calculations.

- Experience in providing Directional Drilling Services, including experience working with the adjustable bent housing, steerable motor assemblies, rotary steerable systems, and other relevant drilling tools used on the rig, in directional wells from multi-slot offshore platforms.
- Experience wells with over 65° of wellbore inclination and ERD applications

Fuel your passion

To be successful in this role you will need:

Minimum of a High School Diploma /GED

Have rig drilling or directional drilling experience of +7 years gained in an oil and gas environment.

- Qualified in accordance with Baker Hughes competency and training requirements.

Enjoy travelling to customer locations and being flexible to customer demands.

Show the ability to perform basic mathematical calculations.

Show good problem-solving and analytical skills, with the ability to identify and implement improvements.

Be a positive team player and show the ability to adapt in an ever-changing, dynamic

environment.

Be fluent in English (oral and written) and excellent all-round communication skills.

Capable of participating in risk assessments.

Work in a way that works for you

We recognize that everyone is different and that the way in which people want to work and deliver at their best is different for everyone.

Working with us

Our people are at the heart of what we do at Baker Hughes. We know we are better when all of our people are developed, engaged and able to bring their whole authentic selves to work. We invest in the health and well-being of our workforce, train and reward talent and develop leaders at all levels to bring out the best in each other.
