Flutter Developer Jobs In Dubai | LeadVy

About the job

We are looking out for a Flutter Developer who will be running and designing product application features across various cross platform devices. Just like Lego boxes that fit on top of one another, we are looking out for someone who has experience using Flutter widgets that can be plugged together, customized and deployed anywhere. Someone who is passionate about code writing, solving technical errors and taking up full ownership of app development.

Requirements

Experience in development of Android/iOS applications and have deployed them on Google Play/App Store.

3+ years knowledge in mobile app development.

In depth understanding of front end languages like HTML, CSS3 and JavaScript.

In depth understanding of Object Oriented programming languages like Java and C++.

Familiarity using version control tools like Git, Subversion etc. and IDEs like Android Studio, VS Code etc.

Understanding of the Agile Software Development Life Cycle and been exposed to Scrum projects.

Knowledge of Dart programming language, Rest APIs and integration of various APIs from third parties.

Comfortable using test cases for debugging code, enhancing performance and reliability.
