

## Front End Developer

[Apply Now](#)

Company: Roundsbase

Location: , , United Arab Emirates

Category: other-general

**Position Overview:** We are looking for a skilled Front End Developer who is passionate about creating exceptional user experiences and has a strong understanding of front-end technologies. The ideal candidate should be proficient in HTML, CSS, and JavaScript, and have experience building responsive and interactive web applications. As a Front End Developer, you will work closely with our design and back-end development teams to translate UI/UX designs into functional and visually appealing websites and web applications.

**Responsibilities:** Collaborate with the design team to translate UI/UX wireframes and mockups into responsive web pages. Develop new user-facing features and components using HTML, CSS, and JavaScript. Optimize web applications for maximum speed and scalability. Implement responsive design principles to ensure that websites are mobile-friendly and compatible with various devices and browsers. Work closely with back-end developers to integrate front-end code with server-side logic and databases. Conduct code reviews and provide feedback to ensure code quality and maintainability. Stay up-to-date with the latest web development trends, techniques, and technologies. Troubleshoot and debug issues related to front-end development, including browser compatibility and performance problems. Collaborate with cross-functional teams to define and implement best practices for front-end development.

**Requirements:** Bachelor's degree in Computer Science, Information Technology, or a related field (or equivalent work experience). Proven experience as a Front End Developer with a strong portfolio showcasing your previous work. Proficiency in HTML, CSS, and JavaScript, with experience using modern front-end frameworks such as React, Angular, or Vue.js. Solid understanding of responsive design principles

and experience building mobile-first websites and web applications. Familiarity with front-end build tools and preprocessors such as Webpack, Gulp, Sass, or Less. Experience with version control systems such as Git. Strong problem-solving and troubleshooting skills. Excellent communication and teamwork skills. Ability to work independently and manage multiple projects simultaneously. Attention to detail and a passion for delivering high-quality code. Preferred Qualifications: Experience with cross-browser testing and debugging. Knowledge of SEO best practices and web accessibility standards. Familiarity with server-side programming languages such as Node.js or PHP. Experience with graphic design software such as Adobe Photoshop or Sketch. Understanding of web performance optimization techniques.
