Company: MAGNiTT, Inc.

Location: , , United Arab Emirates

Category: other-general

United Arab Emirates (UAE) Posted 4 days ago Full-time Our Product & Engineering team is at the center of MAGNiTT. Responsible for maintaining, developing and deploying new features that enhance our platform, the team play a pivotal role in ensuring our clients have access to the full potential of our product while improving it based on our clients' feedback and strategic decisions. Remote working policies Leave increment based on tenure Learning platforms

**Job Description** You'll be an essential member of the Engineering team and we will rely on you to be friendly, knowledgeable, and able to build high-quality, innovative, and fully performing software in compliance with coding standards and technical design. We're looking for someone who is the kind of person who goes the extra mile – you're genuinely helpful and committed, and these qualities won't go unnoticed with us, we believe in giving credit where credit's due.

**Core Duties:**

- Develop features and functionality;
- Design, build, and maintain highly reusable code;
- Enhance code quality through writing unit tests, automation, and performing code reviews;
- Contribute ideas to product development;
- Work on bug fixing and improving application performance;
- Deliver high-quality products on time;

**Job Requirements**

**Required skills and qualifications:**

- 3+ years of experience in web development with extensive experience in NodeJs and MySQL;
- Experience with React.js;
- Experience relational and non-relational databases;
- Experience working on micro-services;
- Familiarity with code versioning tools;
- Ability to write beautiful, easy-to-maintain, well designed, and scalable code;
- Good time-management skills.

**Good to have/be:**

- Experience with Dockerizing & CI/CD;
- Experience in optimizing code;
- Strong communication skills;
- Integrity, you've got the best interests of the company in mind;
- Appreciation for the startup

ecosystem and the ability to learn and understand why and how each of our client types engages with the ecosystem. A 30-minute video call with the hiring manager, where you can describe your background and highlight your strengths. This is a great opportunity to ask about the specifics of the position. Technical Assignment In this stage you'll be given an assignment to work on, to present and discuss it with the hiring manager. Each assignment has been specifically designed for the respective position, and aims to assess your technical skills and thinking process. Culture Interview Our culture is a big part of MAGNiTT. With this in mind, our final stage interview is conducted by our employees. You will meet 3 of our team members, who will assess if you're a good fit for what we're building at MAGNiTT. It's also a great opportunity to ask our employees about how they feel working here.
