Description:

We are seeking a Fullstack Developer with strong knowledge of ReactJS and NodeJS to join our team. The successful candidate will be responsible for designing, developing, and maintaining web applications and services. They should have a strong understanding of the full software development lifecycle and be able to work independently and as part of a team.

Responsibilities:

Design, develop, and maintain web applications using ReactJS and NodeJS.

Collaborate with cross-functional teams to identify and prioritize features.

Write clean, maintainable, and well-documented code.

Debug and troubleshoot issues in production and development environments.

Write unit and integration tests to ensure code quality.

Participate in code reviews and provide feedback to other developers.

Stay up-to-date with emerging trends and technologies in web development.

Participate in agile development processes and ceremonies.

Requirements:

Bachelor's degree in Computer Science or a related field.

5+ years of experience in full-stack web development.

Strong knowledge of ReactJS and NodeJS.

Experience with RESTful APIs and integrating with third-party services.

Experience with database design and management (MongoDB, MySQL, or similar).

Experience with Git version control.

Knowledge of HTML, CSS, and JavaScript.

Experience with Agile methodologies (Scrum, Kanban).

Excellent problem-solving skills and ability to debug complex issues.

Strong communication skills and ability to work collaboratively with others.

Knowledge of AWS or other cloud computing services is a plus.
