Company: Valuelabs

Location: , , United Arab Emirates

Category: other-general

Ready to relocate to Abu Dhabi on immediate basis  
Role Category: Quality Assurance and Testing  
Skills highlighted with “ are preferred key skills  
Education UG: Any Graduate  
Company Profile Valuelabs Technology, innovation and problem solving €“ that€s where we play. We specialize in digital enablement, software product development and data technology. We are a trusted technology partner to over 300 clients globally, serving them from 26 offices worldwide using our OneCompany model of engagement. We were born out of an unselfish act when we built a free, computer based learning program for school students. To sustain this financially, we used the same infrastructure for software projects and the original team of 3 people has now grown to over 7,500. The founding unselfish gene is intact and we bring that same spirit of service to clients globally.
