Geophysicist Jobs in Dubai | Fugro Careers

Description:

You will predominately be involved and responsible for the acquisition, quality control, interpretation and analysis of marine geophysical data, geohazard assessment and the integration of geophysical, environmental and geotechnical data.

Job Responsibilities:

You want to be part of a great team.

Technical background of working with geophysical software.

Practical field experience of marine geophysical survey work such as data acquisition, quality control, interpretation of side scan sonar, sub-bottom profiler or magnetometer data.

Job Requirements:

BSC / MSC or equivalent in a Geophysics, Geology or related discipline.

Good understanding of survey and data acquisition principles.

An understanding of the geophysical equipment and methods used to investigate the shallow marine environments.

Knowledge of data interpretation, mapping, visualisation and plotting software.
