

Geotechnical Design Engineer

[Apply Now](#)

Company: Al Marwan Group Holding

Location: sharjah

Category: other-general

Design and analyze foundations and retaining structures for various types of infrastructure projects. Prepare geotechnical reports, drawings, and specifications for construction projects. Collaborate with other engineers and stakeholders to ensure geotechnical design meets project requirements. Conduct geotechnical investigations and analysis to assess soil and rock properties. Perform slope stability analysis and recommend appropriate remediation measures. Review and interpret geotechnical data and provide recommendations for construction activities. Conduct field inspections and monitoring of construction sites to ensure compliance with geotechnical design. Stay updated on industry standards and regulations related to geotechnical design. Use geotechnical software and tools to perform design calculations and simulations. Provide technical guidance and support to junior engineers and construction teams.
