About Revolut

People deserve more from their money. More visibility, more control, more freedom. And since 2015, Revolut has been on a mission to deliver just that. With an arsenal of awesome products that span spending, saving, travel, transfers, investing, exchanging and more, our super app has helped 35+ million customers get more from their money. And we're not done yet.

As we continue our lightning-fast growth, two things are essential to continuing our success: our people and our culture. We've been officially certified as a Great Place to Work in recognition of our outstanding employee experience! So far, we have 7,500+ people working around the world, from our great offices or remotely, on our mission. And we're looking for more. We want brilliant people that love building great products, love redefining success, and love turning the complexity of a chaotic world into the simplicity of a beautiful solution.

About the role

The Legal team sits at the heart of Revolut and it's a very important part of the business.

This lovely bunch supports all other Revolut teams, helping us achieve our goals each and every day

They're special, they're strong-willed and they work on a lot of different areas (which is not that common for an in-house role, we know, but they're just that good). From structuring credit programmes to launching into new territories, the Legal team does it all!

We hire both generalists (typically corporate/commercial solicitors) as well as specialists (such

as compliance), alongside operations analysts who are all responsible to make Revolut grow. Now it's your turn to WOW us!

You'll work on some of the most exciting and challenging legal issues that impact fast-growth, disruptive fintech companies. You'll be joining a dedicated part of the legal team that's responsible for responding to high priority, complex and, sometimes, sensitive topics. But who doesn't love a good challenge?

What you'll be doing

Supporting our expansion and product teams within Revolut, focusing on new market launch

Reviewing and assisting with the drafting of corporate documents, commercial agreements (including NDAs), affiliate agreements, and third-party agreements in relation to Revolut's products and services

Assisting with drafting, planning, and/or implementing policies and procedures for regulatory matters across different business units

Supporting Revolut's legal department in a variety of tasks ranging from regulatory filings, corporate governance, business development, and more

Leading document management and other administrative tasks for the legal department

Capturing know-how and assisting with knowledge sharing

Putting in place and actively seeking new scalable processes to support the legal department

Managing operational risk for the legal department

Developing and applying strategies for engaging with regulators

Advising Revolut on cutting-edge legal issues relating to the continued roll out of some of our key products (such as payments and trading)

What you'll need

To be a qualified lawyer in the UAE

6+ years of experience

Fluency in English with excellent communication skills

Strong attention to detail

Strong motivation to work in a fast-paced environment

To be comfortable managing large amounts of documents, as well as seeking out new technological solutions to make the legal department's processes and functions more efficient

A high degree of independence, initiative, and decisiveness, and also to contribute successfully to cross-functional teams

Excellent organisational skills and an ability to manage multiple projects at once to meet tight deadlines

A willingness to roll up your sleeves, learn fast, and take responsibility

Nice to have

Fintech experience
