### HEAD OF TECHNICAL ARCHITECTURE Jobs In Sharjah,UAE | WSP

#### Description:

We are looking to hire an experienced technical architect to oversee the design and implementation of our clients' IT systems. As a technical architect, you will be responsible for meeting with the IT manager to discuss company processes, designing the structure of enterprise level IT systems, overseeing the project implementation, and measuring the performance of the new system.

**Responsibilities:**Meeting with the IT manager to determine the company's current and future needs.

Determining whether the current system can be upgraded or if a new system needs to be installed.

Providing the company with design ideas and schematics.

Project managing the design and implementation of the system.

Meeting with the software developers to discuss the system software needs.

Troubleshooting systems issues as they arise.

Overseeing all the moving parts of the system integration.**Requirements:**Bachelor's degree in information technology or computer science.

Previous work experience as a technical architect.

Managerial experience.

In-depth knowledge of enterprise systems, networking modules, and software integration.

Knowledge of computer hardware and networking systems.

Familiarity with programming languages, operating systems, and Office software.

Advanced project management skills.

Excellent communication skills.#J-18808-Ljbffr
