Our Client - A renowned National Oil Company based in the Middle East. With a number of productive oil fields, solid strategies and innovative technologies to maximise recovery while minimising cost. Amazing lifestyle benefits as well as great professional rewards

Job Description - Our client is currently seeking an experienced Construction focused Senior HSE Engineer to join their HSE team. The successful Engineer will be responsible for but not limited to:

- * Develop, monitor and provide guidance on the implementation of the Division HSEMS Plan.
- * Directs and supervise Construction Safety Engineers and provide guidance with regard to Health, Safety and Environmental aspects.
- * Provide Advice to Project teams on all related HSE issues throughout the project life from concept to commissioning.
- * Carry out regular site visits to monitor the implementation of Construction related HSE issues and follow up implementation.
- * Set criteria and carry out technical evaluation of projects and make recommendations to Project Engineers.
- * Carry out self-assessment for Construction HSEMS Plan and recommend enhancement measures.
- * Co-ordinates responses and follows up action items for Project HSE Reviews.
- * Identify Risk based training needs for the division and contractors.
- * Develop technical criteria and carry out Contractors pre-qualifications.
- * Prepare and interpret HSE statistics for the Division and make recommendations to enhance performance.
- * Lead / Participate in different Project's reviews such as HAZOP, HAZID, PHSER, HSEIA.
- * Lead / Participate in Technical HSE audits (THSE) related to the facilities engineering, construction and operation

* As the successful candidate you will have achieved a minimum of: B.Sc. in Engineering discipline, plus formal training leading to a PG dip. or MSc (12-24 months) OR B.Sc. in Safety Engineering from a reputable university.* 12

Years Safety & Environmental Experience including at least 5 years in oil and gas processing facilities.
