Health & Safety Officer Jobs In Dubai | Caliberly

About the job

Qualifications and Requirements:

Hold a NEBOSH Certificate or an equivalent health and safety qualification.

Minimum 1+ yrs experience as a health and safety officer

Proven experience as a Health & Safety Officer or similar role, preferably in a relevant industry or environment.

In-depth knowledge of local health and safety regulations, standards, and best practices.

Strong understanding of risk assessment techniques and accident investigation procedures.

Excellent communication skills, with the ability to effectively communicate complex health and safety information to individuals at all levels.

Detail-oriented with strong analytical and problem-solving skills.

Ability to work independently and collaboratively within a team environment.

Proficient in using computer applications and software relevant to health and safety management.

High level of integrity and commitment to maintaining confidentiality.

Responsibilities:

Develop and implement health and safety policies, procedures, and guidelines in

compliance with local regulations and international standards.

Conduct regular inspections and audits to identify potential hazards, unsafe practices, and non-compliance issues. Take necessary corrective actions to mitigate risks.

Provide advice and guidance to management and employees on health and safety matters, ensuring they understand and adhere to safety protocols and procedures.

Assist in the development and delivery of health and safety training programs for employees, including induction training and periodic refresher courses.

Maintain accurate records and documentation related to incidents, accidents, near misses, and safety performance. Analyze data to identify trends and areas for improvement.

Investigate accidents and incidents to determine root causes and implement preventive measures to avoid recurrence.

Conduct risk assessments and develop risk mitigation strategies for various work activities, equipment, and processes.

Stay updated with changes in health and safety legislation and industry best practices. Make recommendations for improvements to the organization's health and safety programs accordingly.

Coordinate with external agencies, such as government bodies and third-party contractors, to ensure compliance with health and safety regulations and standards.

Monitor the effectiveness of safety measures and initiatives, identify areas of improvement, and recommend and implement appropriate actions.

Promote a safety culture within the organization, fostering awareness, engagement, and proactive participation from all employees.

Prepare and submit regular reports on health and safety performance, including key metrics, incidents, and recommendations for improvement.
