IT Business Specialist – Airport Jobs | fly DubaiCareers

Job Responsibilities:

Compile requirements working with the business owners and drive the initiatives through SDLC to build strategic and tactical IT solutions.

Propose IT solutions to the business through interactive requirements gathering session and screen mockups that would empower the business in their day to day operations and decision making process.

Compose the requirements document by defining use cases that would bring clarity to the requirements specified by the business and present the same in a format that can be shared with stakeholders.

Manage the project implementation using agile methodology and work as the scrum master for the daily scrum meetings to deliver feature based applications to the commercial

organization.

Job Requirements:

BS/BA degree in Information Technology or equivalent combination of education and experience. Masters level degree in Business/Finance/Management preferred.

Minimum 7 years' experience as an IT Business Analyst in an airline.

Ability to execute projects based on Agile Methodology.

Experience in conflict resolution across multiple stakeholders involving senior management to achieve the objective.
