

IT Senior Architect

[Apply Now](#)

Company: Fly Dubai

Location: Dubai

Category: other-general

The job posting is outdated and position may be filled

Responsibilities:

- Manage a team of four to six Web developers, and guide them in inhouse application development
- Guide development partners in design phase of system building, ensuring the application build is highly performing and scalable
- Manage application/software upgrades/downtimes
- Develop frameworks for internal use, including Enterprise wide use of webservices and reusable components
- Ensure adherence to design patterns and best practices for inhouse development as well as work done by development partners
- Ensure there is proper documentation and inhouse knowledge of the website functionality and business flows, which aid in troubleshooting of technical production issues
- Ensure adequate tools and practices are established to support high availability of production systems

Disclaimer:

Drjobs.ae is only a platform that connects job seekers and employers. Applicants are advised to conduct their own independent research into the credentials of the prospective employer. We always make certain that our clients do not endorse any request for money payments, thus we advise against sharing any personal or bank-related information with any third party. If you suspect fraud or malpractice, please contact us via contact us page. Our goal is to make hiring as easy as possible. We find the right talent for every company, ensuring that each candidate finds a job they enjoy. Dr.Job FZ LLC provides 360-degree AI-powered recruiting and job search solutions. If you are looking for a job and haven't found your chance yet, you can upload your profile on our website and find thousands of opportunities globally! Our platform gives you the flexibility you need to thrive in today's market by allowing you to apply for all different kinds of jobs, whether they are full- or part-

time, remote or on-site.
