

Job Opportunity as a Full stack developer at Ejaf

[Apply Now](#)

Company: فرصة For9a

Location: united arab emirates

Category: other-general

Ejaf Technology is looking for a motivated PHP/ Laravel developer to join its team. Duties & responsibilities Participate in the full development lifecycle from refining project requirements to deployment to production and post-production tests. Build secure backends, slick and fast frontends, and a well-documented API. Collaborate with management and other engineers to get the job done efficiently. Work with QA to test and release project features. Provide mentorship to junior developers on best practices, design patterns, etc. Eligibility criteria Bachelor's or Master's degree in Computer Science, Engineering, or related field (preferred but not required) Previous working experience as a PHP/ Laravel developer for (2) years. In-depth knowledge of object-oriented PHP and Laravel PHP Framework. Hands-on experience with SQL schema design, SOLID principles, REST API design. MySQL profiling and query optimization. Basic knowledge in docker. Creative and efficient problem solver. About Ejaf: Ejaf technology is an innovative organization that redefines the information and network security services industry. With dynamic and ever-changing business demands and requirements of information technology in the modern-day, security-related concerns, issues and challenges are more prevalent than ever before. Ejaf empowers users; giving them the ability to connect to corporate resources from any device, from any location at any time to educating and raising awareness to internal employees on social engineering are just some of the challenges security professionals face. Security needs to be visioned with an added dimension to counteract and thwart diverse attack vectors. No longer is it sufficient to rely on traditional security defense mechanisms within your infrastructure; with Ejaf technology you can count on our experience, expertise, diverse knowledge, and

innovative solution offering to meet your business objectives. Ejaf technology is an innovative organization that redefines the information and network security services industry.
