Founded in 2017 we are part of the next generation of companies defining the future of global commodity trading. We make use of advanced data analytics and extensive research to drive profitable decision making trading enough electricity every day to power a small country and growing every day. In doing so we help to balance the electricity grid lowering the cost to end consumers and aiding the transition to a renewable future. Technology and risk management form the backbone of our business. At Cobblestone Energy we are a diverse team of over 50 people from 20 nationalities we believe in hiring extraordinary talent from around the world. Our flat organizational structure helps us in giving our team members complete ownership of the work and ensures ideas come from every level. We believe in providing unlimited growth opportunities to our people alongside constant feedback and support which allows us to cover our vulnerabilities and grow as a team in new and interesting ways. With the right performance and potential you could be managing the power desk for an entire country within eighteen months in your role. Come join our dream team!

Cobblestone Values Lifelong learning with continuous reflection Independent thinking through a meritocracy of ideas The team is more important than the individual Being the best in any market we enter Hiring and keeping only the most effective people Others must benefit from our existence What we offer in this role A fulltime position on our Commercial

team Committed and remarkably talented colleagues Highly competitive compensation dependent on performance An exciting challenging and fulfilling career Investment in your development to ensure that you always remain the best in business Equity participation for strong contributors ensuring our interests are all aligned long term Responsibilities Owning managing and profitably trading in the European power markets while implementing any relevant strategies Innovating new ideas for trading tools and strategies then working with the analysis and development teams to implement them Working as a part of our 24/7 operating trading team to ensure markets are always covered Utilising selfstarter capability while also working efficiently within a team environment Ensuring all power market regulations and requirements are upheld through good communication with the system operators Upholding and living our cultural values

Basic Qualifications Excellent numerical and logical reasoning skills Ability to think clearly in critical situations Passion resilience and integrity

Preferred Qualification & BackgroundWe look for individuals from strong numerical backgrounds as such skills carry over well for excelling as a Junior Trader. However we welcome applicants from all backgrounds and experiences with a track record of excellence both inside and outside of academics. The Hiring Process Once your application has been reviewed the evaluation process will involve psychometric tests a research project and remote interviews. Following this selected finalists will be invited to participate in the final stage of the recruitment process: the Commercial Training Program (CTP) in our Dubai office. During this oneweek program we will cover all relocation expenses including flights accommodation work visa paperwork and related costs.Upon successful completion of the CTP candidates will receive an offer to join our Dubai office as fulltime Commercial Graduates through our Commercial Development Program (CDP). The CDP offers a comprehensive rotational experience in trading and analytics with the guidance of our experienced commercial team. Throughout the program you will receive mentorship and training in market fundamentals allowing you to develop strong analytical skills. After finishing the program you will assume the role of a Junior Trader at Cobblestone Energy.
