Landfill Engineer Jobs in Dubai | KEO Careers UAEDescription:

Our newest opportunity is for a talented Landfill Engineer to join our award-winning team based in Dubai, UAE. Reporting directly to a Project Manager in our award winning Sustainability and Environment Division, this role is responsible for support on landfill (re)design and waste management related projects across the Middle East and potentially further abroad.

Responsibilities: Developing and preparing design drawings (including 3D modelling), reports, analysis, research and presentations relating to landfill, lagoon, remediation and earthworks in accordance with applicable legislation and local conditions.

Undertaking engineering calculations relating to landfill design (geosynthetics, hydrology, geotechnical stability) and waste management planning (waste generation modelling).

Developing design related tender documentation including BOQ's (bill of quantities), specifications and CQA plan. **Requirements:** To be successful in this dynamic opportunity, we envision that your career journey to date will include 1 to 5 years' work experience partnered with a Bachelor degree in Civil Engineering. Specialization in geo-environmental or geotechnical engineering will be a plus.

Experience in landfill, lagoon, waste containment design will be preferred. However, candidates with roads, dams, hydraulics, geotechnical design experiences will be also considered for the role.

Experience in waste management engineering fields and familiarity with international best practice/regulations (such as EU Council Directive, US-EPA, etc.) will be preferred. #J-18808-Ljbffr
