Lead Maintenance Program Engineer Jobs In Abu Dhabi Airport

Job Responsibilities:

Development and implementation of an approved Aircraft Maintenance Program (AMP) for Etihad fleets as per Etihad policies and procedures to ensure an optimized cost efficient and safe Maintenance Program.

Ensures and demonstrates effectiveness of the Maintenance Programs of the assigned fleets through periodic review and analysis of the maintenance programs in terms of reliability parameters and applicable regulations.

Maintain close liaison with the Reliability Engineering group to identify need for adjustment in the Maintenance Programs, and make necessary adjustments into maintenance programs to support on time performance.

Job Requirements:

Tertiary qualifications that meet the eligibility requirements for membership as a chartered engineer (e.g. Bachelor degree in the field of Aeronautical, Mechanical or Electrical/Electronic engineering) with a minimum 5 years job-related experience.

Or diploma/Aircraft License with at least 10 years of experience in aviation maintenance.
