## Lead Quality Assurance Engineer Jobs in Dubai | Emirates Group Jobs

### Job Responsibilities:

Working closely with project members, technical product owners, architects and software engineers to understand the complete context of deliveries to translate complex functional and non-functional requirements in robust end 2 end tests which exercise the business process.

Working with the Technology QA Core team ensure non production environments and test data is available to support end 2 end tests.

Liaise with other release train teams to manage the testing of cross dependencies.

Ensure Test Tools are configured correctly and accurately to support the collection of metrics for program and enterprise-wide dashboards.

### Job Requirements:

5+ years in quality related roles with increasing responsibility, impact, and scope within a digital or ecommerce environment.

3+ years of experience as a Software Quality Engineering lead or equivalent position looking after multiple products.

Experience in providing product input on business process flows and scenario mapping for business solutions.

Experience of understanding and applying system thinking to advanced technology solutions for large, complex organisations in a multi-functional environment.
