Company: Playdawn

Location: abu dhabi

Category: other-general

Description:

YallaPlay is looking for an experienced Level Designer for an action top-down shoot-em-up game. Ideally, this designer has the multiplayer experience and has designed, iterated and shipped multiple levels shipped titles. As a Level Designer, you'll be part of a creative team developing an innovative game... You'll be responsible for developing the design vision, the gameplay mechanics, and environment levels at all points in their creation. Our ideal candidate has a strong work ethic and outstanding problem-solving skills with the ability to deliver on time.

Job Responsibilities:

Lead the levels game design of our new roguelike shooter game targeting the mobile platform

Create clear, concise, and visually-oriented design materials and feature specs that explain your vision, requirements and development plan

Create immersive, challenging and fun gameplay scenarios/environments that support and enhance the core mechanics of the game. Ex level traps, boss patterns, gun mechanics etc.

Work with game programmers to help create design mechanics that yield compelling gameplay experiences.

Communicate design progress with the other creative leads and welcome collaborative feedback and iterations.

Lead the creation of maps, mission structures, encounters and events used across the game levels and worlds

Document workflows that you created to help others be effective in their use.

Playtest the game and give candid notes on how we can improve it.

Job Requirements:

Worked game design for a least 2 shipped mobile titles (please include references)

5+ years of game development experience in mobile titles

Very strong understanding of game mechanics pertaining to roguelike games and shooter game

Extensive experience using Unity

Ability to conceptualize and communicate an engaging gameplay experience

Ability to communicate fluently in English (written and verbal)

Passion and enthusiasm for mobile game development and shooter games
