

## Liferay Developer

[Apply Now](#)

Company: SSC Egypt

Location: dubai

Category: other-general

As a Liferay Developer you will play a vital role in our development team, focusing on the design, development, and maintenance of Liferay-based web applications, portals, and plugins. This role is perfect for a developer eager to contribute to innovative projects and grow their skills in Liferay development.

**Key Responsibilities:**

- Liferay Development:** Participate actively in the design, coding, testing, and maintenance of Liferay-based web applications, portals, and plugins.
- Customization:** Collaborate on customizing and extending the Liferay platform to meet client-specific requirements, ensuring solutions align with project objectives.
- Integration:** Work on integrating Liferay applications with third-party systems and external services using APIs and web services.
- Performance Enhancement:** Assist in identifying and addressing performance bottlenecks within Liferay applications, aiming to optimize efficiency and scalability.
- Security Measures:** Implement security best practices to enhance the protection of Liferay applications against potential vulnerabilities.
- Documentation:** Contribute to creating and maintaining technical documentation, encompassing code comments and design documents.
- Collaborative Efforts:** Collaborate closely with cross-functional teams, including business analysts, project managers, and quality assurance, to ensure the delivery of top-notch Liferay solutions.
- Problem-Solving:** Participate in troubleshooting technical issues and proposing effective solutions to complex problems.
- Staying Informed:** Keep updated with the latest Liferay updates, industry trends, and emerging technologies relevant to web development.

**Requirements:** Bachelor's or Master's degree in Computer Science, Software Engineering, or related field. 1-4 years of professional experience in Liferay development. Proficiency in Java and familiarity with Liferay

Portal.Knowledge of web technologies such as HTML, CSS, JavaScript, and RESTful APIs.Basic understanding of database design and SQL.Experience with version control systems (e.g., Git) and build tools (e.g., Maven, Gradle).Strong problem-solving skills and a passion for learning and adapting.Effective communication and teamwork abilities.Liferay certifications (e.g., Liferay DXP Developer Certification) are a valuable plus.English is mandatory and Arabic is a plus
