Maintenance Manager

[Apply Now](#)

Company: Georgia-Pacific LLC

Location: dubai

Category: other-general

What You Will Do The successful candidate will provide leadership and direction to the maintenance department to ensure that the mill's maintenance team is meeting the objectives in safety, quality, cost and customer service. The candidate will lead and support preventative maintenance programs, and provide technical support for troubleshooting, to minimize downtime and maximize process efficiencies. **Safety Leadership –** Accountable for the safety performance of the maintenance area while promoting personal accountability for working safely and addressing safety concerns in all areas of the mill. **Asset Strategies and Maintenance –** Develop and implement maintenance, PM, and continuous improvement strategies while managing both leading and lagging key performance metrics. Managing within site's maintenance budget. Help employees understand who their customers are and how their work directly impacts spending and mill profits/losses. **Business Leadership –** Promote use of the Reliability Mental Model, Capital planning, MOC, Lubrication Mental Model, outage planning, and condition monitoring. Demonstrate results by working effectively with other mill leaders and divisional resources to improve year over year results. Meets regularly with direct reports and ensure they have updated RR&E's and performance evaluations. Understand and direct training needs for the department to meet sites needs and employee's individual development plans. **Business Culture –** Embrace the direction of the company's way of doing business (Principled Based Management) and help continue to change the culture through tools, and processes available.
