Mechanical Engineer job vacancy in Al Shamkhah City UAE  
Mechanical Engineer job vacancy in Al Shamkhah City UAE  
We are looking for a Mechanical Engineer to join our team in Al Shamkhah City. This is a full time position with a salary of 1400. We are open to candidates without experience, as we offer an extensive training program. The successful candidate will have an in-depth knowledge of mechanical engineering principles and techniques, and experience in design, development, implementation and testing of mechanical systems. The individual should be able to think critically and solve problems quickly. The role involves developing new mechanical systems or improving existing ones, ensuring the efficient distribution of resources and overseeing product development from concept to completion. The engineer will also be responsible for designing components and assemblies using CAD/CAM software, testing prototypes for accuracy and reliability, analyzing data from tests to assess performance, ensuring quality control standards are met and liaising with clients on design issues. We are interested in applicants who possess excellent communication skills, the ability to work independently as well as part of a team, strong organizational skills with the ability to prioritize tasks efficiently and meet deadlines, along with excellent problem solving skills. If this opportunity interests you please submit your CV along with any relevant certificates or qualifications you may have for our review! This job has no reviews yet. You can be the first!
