Company: VaporVM

Location: united arab emirates

Category: other-general

We are seeking a highly motivated and experienced IT Support Engineer to join our team in the UAE. In this role, you will play a vital role in ensuring the security of our organization by managing and implementing our Data Loss Prevention (DLP) Microsoft software. Responsibilities Install, configure, and maintain DLP Microsoft software to prevent unauthorized data exfiltration. Develop and implement DLP policies and procedures to meet organizational security requirements. Monitor DLP alerts and investigate potential data breaches. Troubleshoot and resolve DLP-related issues. Provide technical support to users regarding DLP policies and procedures. Stay up to date with the latest DLP best practices and technologies. Document DLP configurations and procedures. Collaborate with other IT teams on security initiatives. Qualifications 5-6 years of experience in IT support, with a strong focus on cybersecurity. Mandatory Experience in managing and implementing DLP Microsoft software. (Experience with other DLP software vendors is a plus.) Strong understanding of security principles and best practices. Excellent problem-solving and analytical skills. Strong communication and interpersonal skills, with the ability to effectively communicate with technical and non-technical audiences. Fluency in both Arabic and English is mandatory. Must be in the UAE and available for on-site work. Hiring organization Employment Type Full-time
