Get the knowledge to empower your business growth and increase productivity. The most successful trading operations are not the ones that take the fewest risks, but the ones that take the smartest risks, and a mix of intuition and technology can help a firm get ahead of its competition. There is no truly safe trading... Setting up a prop trading firm requires a lot of ingredients to succeed, including the right software, the right minds and enough startup capital to make meaningful trades whilst maintaining an acceptable risk tolerance. Most importantly it... Financial markets are amongst the most advanced and fast-moving drivers of technology in the entire world of business and it is impossible for a proprietary trading firm

to function effectively without effective software, tools and modelling...Is it possible to use any e-commerce platform?What trading platforms are available?Do you offer risk management system?What KYC solutions are available?Which broker are you connected with?Is there a limit to the number of brokers I can use?Axcera.io is a dynamic and innovative financial technology company, revolutionizing the world of proprietary trading. With our strong global presence, boasting four strategically located offices across the globe, we are dedicated to providing exceptional trading solutions to proprietary firms worldwide.Axcera LLC registered in the United Arab Emirates.Our company does not provide financial services.
