Naval Architect

[Apply Now](#)

Company: Deugro (Scandinavia) Oy

Location: abu dhabi

Category: other-general

Location: Abu Dhabi, United Arab Emirates

The deugro group is a globally active company serving the project logistics industry. Counting 1,200 employees worldwide in more than 40 countries, we are a true global network of logistics experts—for road and rail, ocean and air freight. We set the courses of tomorrow—today.

dteq is a company of the deugro group focused on transport engineering, supervision, execution and surveying for heavy lift cargo. Our motivated team of engineers is at the heart of complex projects—planning the transport routes of tomorrow, today. Here is where precision, numbers and calculations are the passion of every employee, along with discovering the world and the sheer unlimited possibilities for moving cargo from A to C via B.

Become a part of our international dteq team at one of our locations in Abu Dhabi, United Arab Emirates. For the next possible date we are looking for you in fulltime as Naval Architect

Your duties and responsibilities will include:

- You are responsible for the specific planning and execution of heavy lift and out-of-gauge transports across all modes of transportation and handling
- The generation and review of AutoCAD stowage drawings for projects, covering crane and lifting surveys
- The drafting and development of lashing and cargo safety documents, including their respective calculations
- You are familiar with port inspections
- You have your eye on the loading/discharging, lashing and securing of cargo on site
- You are responsible for the development of method statements, technical recommendations and feasibility studies
- Visual illustration of the entire procedure with the help of AutoCAD and other applications
- You are responsible for the fine-tuning up of transport drawings, cargo safety plans and the respective calculations
- Development of construction drawings and completion of various

technical calculations You have an overview of everything thanks to your project documentation, such as technical drawings, calculations, ballast water plans, feasibility studies and project correspondence You work with a broad spectrum of devices across many disciplines within your field of expertise You support the project manager in developing technical and commercial recommendations and in creating presentations What you can contribute: Following your successfully completed studies, you have gained at least 5 years of experience as a transport engineer within the project industry or in a similar position within the transport / heavy-duty industry with a focus on project cargo such as heavy-duty and out-of-gauge or super-out-of-gauge cargo Your specialist knowledge in the areas of ocean transport technology and shipbuilding make you an expert You have good knowledge of DNV and other relevant industry standards Experience in lifting by ship crane, in ballasting, load-spreading and grid design The areas of loading, lashing and ship operations, LO/LO and RO/RO are not foreign to you Knowledge within the areas of cargo securing and welding Solutions-centric and creative approaches to tasks Do you love and live for international work? We do, too! Thanks to your good English skills, and possibly also another language, you can move confidently on the international stage Anything goes! Thanks to your hands-on mentality and a healthy do-it attitude, you keep a cool head even in the most difficult of situations Good knowledge of QHSES rules and regulations on both land and sea Ability to travel, also on short notice (25%) What we offer you: A family-owned and run company, deugro group has been active in the project logistics industry for nearly 100 years. With our sights continuously on the future, we are a prosperous company offering you along-term perspective for your professional career. What's more, you benefit from an attractive salary and a modern workplace, with the option to work remotely—ensuring flexible working hours and individual development opportunities. We want to work with people who not only bring the right résumé/CV, but who also pursue their ideas with passion and put them into action with commitment. Contact: Do you value a motivating, international environment with opportunities for development and freedom? Send your application including your salary expectations and a possible start date. dteq Transport Engineering Solutions GmbH Kevin Ryan Off# 301 & 302, Al Reem Plaza Bldg., Electra Street, PO Box 113327, Abu Dhabi ARE #J-18808-Ljbffr
