Ocean Career: University of Khorfakkan Assistant/Associate Professor in Marine Biology  
ECO Posted On October 12, 2023  
The Department of Marine Biology, College of Marine Sciences and Aquatic Biology at the University of Khorfakkan, invites applicants for full-time permanent faculty positions at the Assistant or Associate Professor ranks, starting Spring 2024. Outstanding candidates from all research areas of Marine Biology will be considered with preference to be given to candidates with a PhD in Marine Biology from Universities recognized/accredited by the UAE (United Arab Emirates) Ministry of Education, and those with high research profiles as evidenced by Scopus indexed research. Also, significant undergraduate- and graduate teaching- and supervision experience is an advantage. The successful candidate will be expected to teach effectively in all areas of marine biology, and they should also be willing to contribute to teaching basic biology courses. They will be expected to supervise undergraduate student research projects and help develop postgraduate programs in the college. The successful candidate is expected to engage in other educational, scholarly, and professional activities, liaise with industry where appropriate, and undertake research in their areas of interest.

**Major Responsibilities**  
Teach courses in all areas of Marine Biology at the undergraduate and graduate levels. Lead active research projects in their field of specialization and supervise undergraduate student research projects/theses. Contribute to curricular development and accreditation exercises in the College. Engage in community service, service to the university as well as to the profession.

**Sought after competencies**  
Capability and experience in teaching a wide variety of

marine biology courses at undergraduate level, and specialized marine courses at graduate level. Proven record of conducting independent high-quality research in their field of specialization and publishing in SCOPUS journals. Proven record of attracting research funding and writing successful collaborative grant applications. Demonstrated contributions to program development and accreditation. International job experience (e.g., North America, Europe, Australia). Fluent in English (and Arabic is an advantage) Qualifications Minimum qualification includes a Ph.D. in Marine Biology or Marine Science, with graduate education record combining course work and research from a reputable and accredited institution of higher education. The University of Khorfakkan offers a competitive tax-free salary and benefits package. ECO Magazine is a marine science trade publication committed to bringing scientists and professionals the latest ground-breaking research, industry news, and job opportunities from around the world. The ECO Newsletter is a weekly email featuring the Top 10 stories of the past seven days, providing readers with a convenient way to stay abreast on the latest ocean science and industry news.
