Home » [Operations Associate – Coverage and Capabilities](#) Remote Operations Associate – Coverage and Capabilities Function: Operations Reporting to: COO Location: Remote Job Type: Permanent/Full time Jan 18, 2024 Why uqudo? We are a leading, multi-award winning, Identity Access Management Start Up. uqudo was born with a mission to rid the digital world of fraudulent identities. We aim to instil trust in digital transactions where interactions are essentially anonymous. Founded by a team of identity experts, uqudo has a long heritage of delivering large-scale, high-quality projects with success stories in digital federal national identity programs, national driving licence systems, and national electronic passport programs. As a natural progression of these successes, uqudo has reinvented itself as an intelligent AI-based identity layer that's future-proof, dynamic, and secure. Our talented and diverse workforce spans 18 nationalities across 7 countries, with all of our opportunities offered as either fully remote or with hybrid working flexibility. What do we value? Trust is at the centre of our mission, our product, and our culture. We are honest and transparent in all of our interactions, with our customers, and with each other. And we trust our employees to make good decisions for themselves and for uqudo. We care – more – always – about each other, our customers, and our community. We encourage all of our employees to achieve and maintain their version of excellence through an empowering management culture. The Position: As a Coverage and Capabilities Associate at Uqudo.com, you will play a pivotal role in mapping the identity regulatory landscape in the Middle East and Africa. You will work closely with the COO and legal counsel to translate regulatory documents into a structured database format, manage the visualization of the regulatory landscape in

Airtable, and collaborate with the product and operations team to expand Uqudo's coverage and verification abilities for individual and company identity documents.

Key Responsibilities:Regulatory Landscape Mapping:Collaborate with the COO and legal counsel to map the identity regulatory landscape by country in the Middle East and Africa.Translate regulatory documents into a structured database format.Coverage and Verification Enhancement:Work closely with the product and operations team to expand Uqudo's coverage and verification abilities for individual and company identity documents.Airtable Management:Manage the visualization of Uqudo's coverage and capabilities in Airtable.Manage the visualization of the regulatory landscape in Airtable.Visualize coverage and capabilities in Airtable for effective communication across teams.

Key Skills and Requirements:Legal or Regulatory Background:Strong legal or regulatory background within the Middle East.Research Skills:Strong research background, with the ability to gather and analyze regulatory information effectively.Data Management:Proficiency in working with data and building structured data models.Experience using Airtable or Advanced Excel for data visualization and management.You should have:Bachelor's degree in Law, Regulatory Affairs, or a related field.Proven experience in legal, regulatory, or research roles, preferably within the Middle East.Strong analytical and problem-solving skills.Excellent communication and collaboration skills.Detail-oriented with a high level of accuracy.Please note that you must currently be eligible to work and remain indefinitely without any restrictions in the country to which you are making an application.Uqudo is committed to providing equal employment opportunities to all applicants for employment and to all employees, without regard to race, colour, religion, gender, sexual orientation, age, protected disability, veteran status, or any other protected status in accordance with applicable federal, state or local laws.
