11/3/2014 Apply For Job Applicants 83 Views 6515 Job Description Under the supervision of

the Operations Manager, Operations Engineer is a member of Terminal's operational team

fulfilling the liability towards Operations activities with necessary compliance pertaining to

the IMS standards through a courteous, helpful and professional manner. This position

provides a highly visual deterrent to terminal's safety and security as well while adhering to

the Quality, Health & environmental standards. Primary Objectives include but are not limited

to: • Adheres to the QHSE Management System of the Terminal that is compliant with

OHSAS 18001:2007, ISO 14001/2004, and ISO 9001/2000. • Manages tank farm activities,

including Shipments, tanker loading/offloading, bulk tanker planning, blending of products,

etc. • Complies with all the required documentation of operational checklists and reports for

Operations Activities. • Maintains product quality at the highest level while delivering to

customers. • Monitors bulk stocks of tanks. • Enhances improvement in operations activity,

proposes new procedures to maintain quality and safety of product and operating

staff. • Assists the Operations Manager in drum filling planning to ensure shipments are

dispatched within optimum time frame. • Strictly monitors the compliance of all the QHSE

standards & follows up in case of non-conformance to ensure that corrective actions are being

implemented where necessary. • Complies with the system of "Safe Work Permit" & ensures

its implementation. • Assists the Operations Manager in implementation of Job Safety

Analysis and simultaneously inspects the job site activities with maximum concern

towards hazardous areas. •Coordinates and participates in the investigation of accidents & near misses and thereby suggesting corrective measures for reoccurrence. •Conducts emergency response exercises and drills at regular intervals to e Job Category Biomedical Engineering Job Requirements Experience Min: 3 Years Max: 5 Years Career Level Junior Job Type Full Time Vacancies 3 Open Positions Salary Negotiable Gender Any Degree Level Bachelor's degree Faculty / Institute Any Major Chemical Engineering Age Any Nationality Any Residence Location Any Languages Any Own a Car Any Have Driving License Any Job Skills Essential Skills and Qualifications: •Diploma/Degree in Chemical Engineering or Equivalent •At least 3 - 5 years of experience in a similar role preferably in the UAE •Previous experience in Terminal handling will be an added advantage. •Knowledge of IMCO class, IMDG codes, ISGOTT standards •Excellent analytical skills •Able to be convincing, communicatively strong •Excellent training skills •Able to provide detailed reports •Fluent English speaking and excellent report writing skills •Qualified in implementation of IMS About The Company The year 1995 saw the inception of Petrochem Middle East FZE. We have since transformed the face of the regional petrochemical business and become one of the largest independent chemical distributors in the Middle East. Petrochem has built one of the most modern, state-of-the-art distribution terminals in Jebel Ali. This facility includes bulk Storage Sea fed tanks, dedicated drum storage facilities, four fully automated drumming lines and a separate dry goods storage area. The terminal adheres to the strictest of health and safety norms and is environment friendly, making sure all operations upkeep the health and safety of its personnel. We began operating from one office in the Jebel Ali Free Zone, Dubai, but rapid developments and a focused vision have ensured Petrochem's global expansions. We currently have offices in Dubai, Jebel Ali, Shanghai, Antwerp and London. We also have an office and distribution facilities in Singapore, India and United Arab Emirates. We are an ISO 9001:2008 company and also have ISO 14001:2004 and OHSAS 18001:2007 accreditations.
