Petroleum Engineer Jobs In Abu Dhabi | Sundus

Description

We are looking for an analytical petroleum engineer to assist with the location of natural petroleum reservoirs and to devise the best methods of extraction. The petroleum engineer's responsibilities include discovering new petroleum reservoirs, developing cost-efficient, effective methods of petroleum recovery, extracting and producing oil and gas from underground reservoirs, and developing new ways to extract oil and gas from older reservoirs.

Requirements:A bachelor's degree in petroleum, civil, mechanical, chemical, or related Engineering field.

An in-depth, creative knowledge of extraction techniques and principles.

Good IT, research, and survey skills.

Strong technical, analytical, numerical, and problem-solving skills.

Good communication, interpersonal, and teamworking skills.

The willingness and ability to be held accountable for multi-million dollar operations.

The willingness and ability to work in remote locations, with harsh climates and often unfriendly locals.

The ability to handle a physically demanding and stressful work environment.#J-18808-Ljbfrr
