PHP Developer Jobs In Sharjah 2023 | Gadget Express

Description

PHP developers write server-side web applications using Hypertext Preprocessor (PHP) scripting languages. They are tasked with developing and coding back-end components and connecting applications to other web services.

Requirements:

As a Web Developer you'll work on an exciting range of projects from inception to delivery. You will be responsible for the creation and consumption of API Services. To be successful in this role you'll require experience with PHP, OOP Patterns, APIs, Automated and Manual Test tools. An excellent grasp of at least one PHP Framework is a must.
