

## PLC Engineer Jobs in Dubai 2023 | Siemens Careers UAE

[Apply Now](#)

Company: Siemens

Location: dubai

Category: other-general

Responsibilities:Comply with any QHSE standard of both Client and Siemens internally.

Troubleshooting all PLC/Controls related issues in all Customer Service sites, including logic, communication, and hardware about the PLC system.

Drive minor/major modification of the system w.r.t. high and low-level electrical controls, including hardware and software. E.g., PLC, drives, HMIs, etc. (2nd and 3rd level PLC backup).

Suggest and implement PLC/Controls improvements.

Prepare technical reports related to System Improvements, Incidents (RCA), and liaise with the Client.

Control and monitor material flow within the system via SCADA and CCTV. Ensure proper communication from the control room to field supervisors/technicians and vice versa for appropriate fault finding.

Requirements:Bachelor's Degree with a minimum of 5 years of Automation experience, specializing in Instrumentation or Electro-Mechanical or Electrical or Electronic Engineering.

Minimum 3 years of experience in Project development and commissioning involving Siemens PLCs (Simatic Manager-Step7, TIA), HMIs (WinCC Flexible), Drives (Sinamics, Micromaster, SEW, Danfoss), and SCADA (WinCC).

Airport Baggage Handling System (BHS) experience is a must.

Good understanding of "PLC/SCADA" systems required.#J-18808-Ljbfrr
