Career Level - IC3

The financial services industry continues to evolve amidst disruption caused by an unprecedented proliferation of digital technologies and connectivity. This disruption coupled with several regulatory directives is also driving the emergence of connected ecosystems. To successfully address disruption, protect customer relationships and business, effectively comply with regulations, stay competitive and leverage the ecosystem opportunity, banks must double down on transforming their core systems so that they can leverage evolving technologies and connectivity to deliver better services, experiences and value for their customers.

With technology at the core of banking, modernization of core systems is the cornerstone of digital transformation in a bank. Oracle FLEXCUBE Universal Banking can help banks jumpstart digital transformation and leapfrog their capabilities to stay relevant, competitive and compliant in a fast-evolving industry. With its modern, digital, shrink-wrapped, preconfigured, interoperable, scalable and connected capabilities, the Oracle FLEXCUBE Universal Banking system can help catapult banks to the forefront of innovation and leadership.
