1- Principal Resident Engineer (Scada and I&C)

Job: Full Time

Location: Abu Dhabi, UAE

Description:

The Resident Engineer will lead development of the strategy, design and implementation of an enhanced SCADA control environment.

Job Responsibilities:

Acts as the lead problem solver in incorporating industry standards and modern technology into the SCADA design.

Provides review/comments on electrical engineering control system drawings such as site location instrumentation layout drawings, SCADA control room layout drawings, control schematic diagrams, wired/wireless protocol designs, control and logic diagrams, and control system equipment.

Acts as the client's representative in design meetings with consultants and contractors and suggests solutions and recommendations in evolving a standard design philosophy.

Coordinates with consultants in preparation of method statements related to SCADA works.

Develops, establishes and upgrades SCADA design and implementation standards, with periodic reviews to ensure the client remains current with evolving SCADA design methods.

Job Requirements:

4 year engineering degree (Electrical, Electronic or similar) or equivalent. Professional Engineer certification is preferred.

10+ years experience in designing, implementing and/or managing SCADA control systems and components in the 24×7 continuous process drainage, sewer or water utility industry.

Hands-on experience in the design of SCADA systems and demonstrable work experience on at least 4 major SCADA projects with a minimum of two projects implementing site wide SCADA.

Demonstrable knowledge of structured programming, SCADA communication techniques and protocols.
