Process Engineer Jobs In Abu Dhabi | Worley

About the job

We're not just engineers. We're a global team of data scientists, consultants, construction workers and innovators all working to create a better tomorrow. Every day, we help customers in energy, chemicals and resources get one step closer to solving our planet's toughest issues. Climate change. The energy transition. Digital transformation. And how we can deliver a more sustainable world.

Responsibilities

Deliver process engineering services that meet Worley, its customers and applicable statutory and regulatory specifications, on time and within budget.

Perform process engineering services such as:

- identify and report changes to project scope;
- assist with the preparation of proposals, estimates, budgets and schedules;
- provide assistance during procurement, construction and commissioning activities. For example, write requisitions, conduct technical bid evaluations and write purchase orders;
- contribute to appropriate studies, analyses and recommend actions;
- assist with the preparation of detailed designs and drawings, specifications, data, calculations and reports.

Keep up-to-date with the latest developments and technical innovations in process engineering.

If required, assist and support junior personnel within the process engineering team.
