Apply AlsoProperty Management Administrator Jobs In Abu Dhabi | Savills Middle East

We are on a mission to become one of the strongest “Experience first” companies in the region, and we need a Product Designer II to champion the cause. As a Product Designer II, you will be in the forefront of delivering top-notch employee experiences for our colleagues using internal tools. You will integrate within our Product Squads while owning the entire design process for the focus area. Apply AlsoCustomer Experience Specialist Jobs In Sharjah | BupaResponsibilitiesDevelop deep domain knowledge of your squad’s service area and team up with your manager to solve the toughest problems. Design for you isn’t just pretty interfaces – you’ll spend a lot more time understanding the problem space through generative research, synthesizing insights, running ideation sessions/workshops to design a delightful customer service experience.

Minimize assumptions in your design process.

Work with the PM to define your focus areas and contribute to the overall direction of your product area while measuring ongoing improvement

Get continuous feedback from the users through different stages of the problem solving process. Apply AlsoTrack and Trace Lead Jobs in Dubai | Philip Morris International RequirementThink in terms of scalable systems, not just one-off solutions.

Use a variety of metrics to evaluate and continuously improve the user experience.

Continuously improve design processes, knowledge, and tools to measurably enhance productivity and product quality.

Proactively drive cooperation within the design chapter & contribute to fostering collaboration with other departments.

Regularly present your work to peers, stakeholders and leaders for review and feedback
