Product Manager Jobs in Dubai, United Arab Emirates | VUZ – Teleporter Job in 2022

[Apply Now](#)

Company: VUZ - Teleporter

Location: , , United Arab Emirates

Category: other-general

Description:

The job holder will be responsible for the execution of product-related activities including developing the strategies, identifying new market opportunities, defining the product roadmap, and planning the next releases.

Responsibilities

Lead 360VUZ streaming platform core products across different consuming devices (Web, Mobile, and TV).

Participate in developing the strategy and vision for 360VUZ Streaming platform alongside with other squad members, design, product, analytics, and engineers.

Collaborate on building and executing the platform roadmap including setting features, defining goals & objectives, maintaining backlog, and monitoring milestones with other departments members: commercial, marketing, VAS & analytics etc.

Work closely with data in analyzing and preparing reports to understand its meaning and how 360VUZ can optimize its products to offer better streaming services to its customers.

Be the advocate of 360VUZ users to understand their needs & expectations, and the problems they are facing better than anyone else.

Conduct market research to find out new market gaps for potential ideas and features, as well as understanding user demographics, and digital trends.

Requirements

A bachelor degree in Computer Science, Computer Engineering or any related technical field

4+ years of experience in modern consumer-facing Product Management across different devices: Web, Mobile, and TV.

Have a solid experience in managing Digital Media & Entertainment related platforms with a deep understanding of the OTT industry.

Have a proven track record of delivering cross-platform consuming facing digital products such Web, Mobile, and TV.

Have a solid experience with practicing Product Management using different Agile methodologies such as Scrum, Kanban, and XP including its tools, such as Jira and Confluence.

Have a proven knowledge and experience in dealing with different technologies such as Web, Mobile, Cloud, etc. as well as Software Engineering Teams.

Demonstrate the ability to manage cross-functional stakeholders, including engineers, data scientists, product managers and executives.

Experience in dealing with different 3rd-party analytics platforms such as Google Analytics, Firebase, and Amplitude.

Eloquent presentation and management facing communication.

Have a strong strategic and analytical thinking, and is able to vision the overall picture on a platform level.

Experience in managing subscription-driven business models is a plus.
