Project Manager - Business Analyst:

TitleProject Manager - Business Analyst **Experience:** 6 to 9 **Job Type:** Full Time

Employment Type: Permanent **Job Status**Hot **Country:**United Arab Emirates **City:**

Remote-UAE

Job Description & Role:

The company is working in the field of eKYC and eSignature, enabling institutions to leverage face authentication and various biometrics services for identity management and biometrics-driven contract signing.

The candidate will work closely with the company founders, assessing new projects, outlining requirements and working with technical teams on both project planning and deliveries.

Selected Candidate will be required to work onsite following several month with business trips to Clients.

Responsibilities:

- Deliver projects in the current eKYC ecosystem according to identified scope and timelines
- Work closely with app development and biometric teams: both internal and vendor employees
- Manage presales: work with client representatives, understand requirements, outline high level scope, manage estimation and budgeting processes with all stakeholders
- Manage timelines and integration dependencies for launched projects

Key Skills:

- **Business Analysis**
- **Software Development**
- **Project Management**
- **Pre-sales**

Additional Requirements:

- 3+ years of hands-on project IT management in an Agile environment
- Strong technical background, ability to recommend technical stack according to client's specific requirements
- Business analysis background: you have worked as a full time business analyst for at least 3 years prior to switching to the project management role
- Experience acting in the environment of high uncertainty and making decisions
- Customer facing experience
- Excellent command of English & Arabic
- PMP certification is a plus
