

Project Manager (Gas Distribution, LPG, CNG, SNG)

[Apply Now](#)

Company: Talent Bridge HR Consultancy Dubai

Location: Dubai

Category: healthcare-practitioners-and-technical

Job Title: Project Manager (Gas Distribution, LPG, CNG)

Location: Dubai, UAE

Employment Type: Full-Time

The Company:

Our client is a well-established company with a rich 75-year history of success across various sectors. They are part of a diverse group of companies with a strong presence in construction, oil and gas, retail, hospitality, healthcare, education, and related industries.

You will work for one of their companies, that is a leading Gas Distribution company in Dubai and Abu Dhabi. Some of their clients are Emaar and Nakheel.

Seeking a highly motivated and experienced Project Manager (Gas Distribution, LPG, CNG) to join our client in Dubai.

You will be responsible for overseeing all aspects of gas distribution projects, specifically involving Liquefied Petroleum Gas (LPG) and Compressed Natural Gas (CNG). Your primary focus will be ensuring successful project planning, execution, and delivery within budget, schedule, and safety regulations.

Key Responsibilities:

Manage and lead a team of engineers, technicians, and other personnel involved in gas distribution projects.

Develop and implement comprehensive project plans, including schedules, budgets, resource allocation, and risk mitigation strategies.

Collaborate with internal and external stakeholders, such as clients, contractors, consultants, and regulatory bodies.

Oversee all stages of gas distribution projects, including design, procurement, construction, installation, commissioning, and handover.

Ensure strict adherence to safety protocols, industry standards, and local regulations governing LPG and CNG distribution.

Conduct regular inspections to verify compliance with project specifications and safety requirements.

Identify and address project risks and issues proactively, implementing solutions to maintain project timelines and objectives.

Prepare and manage project documentation, including drawings, specifications, reports, and permits.

Maintain strong communication and collaboration with all project stakeholders.

Qualifications and Experience:

Minimum of 3 years of experience in project management within the gas distribution industry, specifically with LPG and CNG projects. **(required)**.

Proven track record of successfully delivering gas distribution projects on time, within budget, and meeting all safety standards.

In-depth knowledge of gas distribution systems, design principles, and regulations for LPG and CNG.

Strong understanding of safety procedures and best practices for handling LPG and CNG.

Excellent communication, coordination, and interpersonal skills with the ability to build strong relationships with diverse stakeholders.

Proficient in project management methodologies and tools (e.g., Primavera, MS Project).

A Bachelor's degree in Engineering (preferably Chemical, Mechanical, or related field) is a plus.

Working knowledge of relevant Dubai regulations and safety codes for gas distribution is essential.

AutoCAD proficiency is a strong advantage.

Salary:

Competitive and commensurate with experience.

Benefits:

Attractive benefits package that include health insurance, paid leave, and other benefits.
