KEO is a creative enterprise, where innovation is a way of life. We are uniquely resourced with end-to-end services to take clients from inspiration – through conceptualization – to realization of planning, design or project delivery in the built and natural environments. For over 57 years we have led with vision, contributing to many of the world's most ambitious projects, iconic places, remarkable experiences and prosperous communities.

Responsibilities:Manage all phases throughout project scope, including project set up, design and project coordination meetings.

Plan and manage project scheduling, project budgets, project staffing, project work plan, and project set-up with project team and sub consultants.

Proactively identify, assess and mitigate project risks.

Resolve problems through objective and systematic analysis.

Collaborate with Leaders and colleagues to promote an inter-disciplinary design approach and philosophy, and to achieve project targets.

Ensure project standards and QA/QC control procedures are implemented and maintained for each of the technical areas required to complete the job, to achieve high standards of design and documentation.

Requirements:Licensed as a Professional Landscape Architect / Master Planner / Urban Designer / Architect / Engineer by an internationally recognized architectural or engineering association or body.

Experience in the management of entire project lifecycle of large, complex, multidisciplinary projects through to post-occupancy.

Proven ability to lead, manage and mentor multiple project teams.#J-18808-Ljbfrr
