Project Manager| Sargent & Lundy Abu Dhabi

Sargent & Lundy is one of the world's longest-standing full-service architect engineering firms. Founded in 1891, the firm is a global leader in power, energy, and decarbonization with expertise in grid modernization, renewable energy, energy storage, nuclear power, fossil power, carbon capture, and hydrogen. Sargent & Lundy delivers comprehensive project services – from consulting, design, and implementation to construction management, commissioning, and operations/maintenance – with an emphasis on quality and safety. The firm serves public and private clients in the power, energy, gas distribution, industrial, and government sectors.

Sargent & Lundy is one of the most experienced full-service architect-engineering firms in the world. Founded in 1891, the firm is a global leader in power and energy with expertise in grid modernization, renewable energy, energy storage, nuclear power, and fossil fuels.

Sargent & Lundy delivers comprehensive project services—from consulting, design and implementation to construction management, commissioning and operations/maintenance—with an emphasis on quality and safety. The firm serves public and private sector clients in the power and energy, gas distribution, industrial, and government sectors.

Project Manager | Sargent & Lundy Abu Dhabi | [Apply Now](#) This position requires a Bachelor's degree in mechanical engineering with 12-15 years of experience in the power industry, including

Owner's engineer, independent engineer, and/or design engineer experience for development and execution of conventional power generation specifically CCGT / Cogeneration.

Experience with project contracts including PPA and PWPA.

Feasibility studies for power projects

Experience and technical knowledge in multiple power generation technologies – solar, battery energy storage, wind a plus but core competency in conventional energy is required.

Experience in long-term power supply and transmission planning projects is a plus

Experience in project finance or financial modeling of power projects is a plus

Experience with, LNG projects, SWRO, H2/Ammonia, or CCUS projects is a plus
