We are looking to hire an enthusiastic and experienced Prosthodontist to examine patients and restore missing, damaged, or discolored teeth. The Prosthodontist's responsibilities include identifying and treating the root cause of oral deterioration, repairing patients' dentures, as well as treating facial pains and temporomandibular disorders. You should also be able to advise patients on sound oral hygiene practices.

Responsibilities

Examining patients using X-rays and dental instruments to determine the type of dental prostheses required.

Consulting with patients to discuss their dental concerns and medical histories.

Taking impressions of patients' jaws and teeth to determine the dimensions of the dental prostheses to be fabricated.

Sending wax models of dental prostheses to the laboratory for fabrication.

Fitting newly fabricated dental prostheses in patients' mouths and assessing whether adjustments are required.

Performing teeth whitening procedures to treat extrinsic tooth discoloration.

Using bonding procedures to repair cracks and chips, fill small gaps between the teeth, and alter the size of teeth.
