Location: dubai

Category: other-general

Prototype Development Officer Jobs in Abu Dhabi | Etihad Careers

Job Responsibilities:

Work with the Enterprise Analytics Team and business stakeholders to identify a “pipe-line” of opportunities where automated decision-support tools can deliver business value and prioritise them.

With your fellow colleagues, explore data, conduct preliminary analysis, assess the potential commercial value, and develop prototype solutions using advanced machine learning techniques if necessary

With your fellow colleagues, develop business cases for solutions

Job Requirements:

University degree education in mathematics/statistics, science, engineering, or psychology is required, post-graduate qualification an advantage.

At least 4 years of experience directly working with large, and complex datasets, interrogated with R/Python and SQL and/or proven ability to build working prototypes of decision support tools (predictive models, prescriptive models, recommendation engines, simulators) that execute in production and deliver commercial value.
