

Python Developer

[Apply Now](#)

Company: Snaphunt

Location: United Arab Emirates

Category: healthcare-practitioners-and-technical

The Offer

Excellent career development opportunities

Work alongside & learn from best in class talent

Work within a company with a solid track record of success

The Job

Responsibilities:

Develop and maintain the back end of our web applications using Python Django

Collaborate with front-end developers to integrate the back-end with the front-end application.

Write efficient and maintainable code using best practices and design patterns.

Develop and maintain unit tests for back-end code.

Use related technologies to build server-side applications, APIs, and integrations.

Participate in code reviews and provide feedback to improve code quality.

The Profile

Requirements:

Must complete Bachelor's degree in Computer Science or related field.

Must have 4-5 years of professional experience with Python, Django & Rest API.

Proficiency in Redis Implementation, Multitenant Architecture & Elastic Search.

Experience with signal, web sockets, celery, scheduler & crone jobs

Experience with Google Cloud Platform and/or AWS.

Experience with GitLab or similar version control systems.

Experience with MySQL/PostgreSQL with optimization and handling big data.

Experience with Agile development methodologies.

Strong problem-solving and debugging skills.

Excellent communication and Ability to work independently and as part of a team.

If you are passionate about back-end development and want to work on challenging projects in a fast-paced environment, we encourage you to apply for this exciting opportunity.

Nice to Have:

Experience with other backend technologies, such as Node.js, Ruby on Rails, etc.

Experience building web applications using the fastAPI framework and understand the features it offers for building web APIs like asynchronous support, dependency injection, and route generation.

Experience with containerization and orchestration technologies, such as Docker and Kubernetes.

Experience with APM tools like New Relic or similar will be advantage.

The Employer

Our client is a B2B SaaS company that aims to offer a cutting-edge Innovation and Product Lifecycle Management (IPLM) platform on the cloud to businesses worldwide.
