Category: healthcare-practitioners-and-technical

Python/VBA Support & Maintenance Freelancer

### **Job Description:**

Seeking a skilled Python & VBA Support Specialist to maintain and troubleshoot Python and VBA applications.

Responsibilities include diagnosing issues, implementing fixes, and optimising performance to ensure reliability.

### **Responsibilities:**

Provide technical support for Python and VBA applications, troubleshooting and implementing solutions.

Perform routine maintenance tasks, such as updating software and patching security vulnerabilities.

Collaborate with developers and stakeholders to enhance functionality and usability.

Document processes and procedures for future reference and training.

Monitor system performance, identify potential issues, and implement preventative measures.

Provide end-user training and support for Python and VBA applications.

### Qualifications:

Proficiency in Python and VBA programming, with experience troubleshooting technical issues.

Understanding of software development principles and best practices.

Familiarity with version control systems and issue tracking tools.

Strong analytical and problem-solving skills.

Excellent communication and interpersonal skills.

Ability to work independently and manage multiple tasks effectively.
