Jan 26, 2024 - Tabby is hiring a remote QA Engineer (Checkout). Location: Egypt, United Arab Emirates, Kuwait, Saudi Arabia. Tabby creates financial freedom in the way people shop, earn and save by reshaping their relationship with money. Over 5,000,000 active users choose Tabby to stay in control of their spending and make the most out of their money. Over 30,000 global brands and small businesses, including H&M, Adidas, IKEA, SHEIN, noon, and Bloomingdale's, use Tabby's technology to accelerate growth and gain loyal customers by offering flexible payments online and in stores. Tabby is active in Saudi Arabia, UAE, Egypt and Kuwait and backed by leading investors, including Sequoia Capital India, STV, PayPal Ventures, Mubadala Investment Capital, Arbor Ventures and others. We are hiring for Senior QA Automation Engineer to join one of our Core Teams! In this role, you'll be an integral part of our backend development team, ensuring that our product meets the highest standards of quality. You'll thrive in our fast-paced, ever-evolving environment, utilizing your expertise to implement robust QA processes. Key Responsibilities Implement and refine QA processes within the backend development team, leveraging company tools such as golang, gitlab, qase.io, and jira. Conduct comprehensive functional and non-functional testing to uncover potential issues and ensure seamless product performance. Develop and maintain automated tests in alignment with the testing pyramid, ensuring efficient and effective testing coverage. Skills, Knowledge and Expertise Proven experience in testing and automating APIs, demonstrating a deep understanding of API testing best practices. A product-oriented approach to QA, with a keen eye for detail and a focus on delivering a flawless user experience. 2+ years of hands-on experience in the role of QA Automation, showcasing

expertise in building and executing automated testing suites. Proficiency in programming languages such as golang, python, or java (golang preferred), allowing you to create robust and efficient automation scripts. Strong knowledge of CI/CD pipelines in any form, indicating your ability to integrate automated testing seamlessly into our development workflows. Bonus Skills Experience with multiple programming languages (single language proficiency is acceptable, but multiple languages are a bonus). Prior experience in load testing, showcasing your ability to evaluate system performance under various conditions. A relevant educational background in Computer Science, Software Engineering, or a related field. Familiarity with Kubernetes and Docker, demonstrating an understanding of containerization and orchestration technologies. Benefits We offer flexible working hours and trust you to work enough hours to do your job well, at times that suit you and your team. A working environment that gives you autonomy and responsibility from day one. You should be comfortable with the idea that the quality of your work will influence the shape of your career. Participation in company's employee stock options program. Health Insurance
