QA/QC Manager Jobs In Dubai | INTECH Automation & Intelligence

About the job

We are seeking a highly motivated and experienced Technical Quality Manager to lead quality control efforts in our organization. The ideal candidate will have a strong background in site fabrication, supplier document numbering system.

Responsibilities: Develop an understanding of the client's needs and requirements and communicating them and the quality standards to the production teams.

Devising ways to improve the manufacturing process to ensure higher-quality goods.

Devising, improving, and reviewing new specifications and procedures for products or processes, and training staff to use them.

Set requirements for raw material or intermediate products for suppliers and monitor their compliance.

Perform quality checks and inspections as per inspection and test plan for a particular project.

Supervising inspectors, technicians, and other staff members and providing guidance.

Assist or coordinate with external and internal auditors and inspectors as per requirement.

Ensuring legal obligations are followed and ensuring compliance with regulatory bodies and with health and safety guidelines.

Overseeing product development procedures to identify any deviations from quality standards.

Inspecting the final output, comparing it to the requirements, and approving or rejecting the final products.

Keeping accurate documentation and performing statistical analysis.

Maintain record of quality incidents, lesson learnt and associated corrective action and make sure the information is disseminated across all project teams and related functions.

Solicit feedback from customers to assess whether their requirements are met.

Submit detailed reports to appropriate executives. Requirements: Bachelor's/ Master Degree in Engineering or Quality management.

15 years of work experience in receiving inspection, certification, MDR compilation, Hydro testing, Dimensional control.

Experience with NDT, welding, and lifting operations.

API 510/570 or experienced to min BTEC/City & Guilds (HNC/HND) or equivalent with broad knowledge of requirements for testing pressure vessels and piping.

Relevant industry certifications, such as IRCA Lead Auditor qualification and CSWIP Plant inspector Level 2.

Strong understanding of document management systems and processes, and experience in developing and implementing document numbering systems.
