Job Description: QA/QC Engineer
Location: Abu Dhabi United Arab Emirates (UAE)
Industry: Oil Gas and Fabrication
Experience: 45 years
Certifications: NDT Level 2 CSWIP

Summary: We are seeking a meticulous and experienced QA/QC Engineer to join our team in the oil gas and fabrication industry. The ideal candidate will be responsible for ensuring the quality and compliance of our projects with industry standards and regulations. The role requires expertise in NonDestructive Testing (NDT) at Level 2 and CSWIP certification. If you have a keen eye for detail strong analytical skills and a passion for maintaining high quality standards we encourage you to apply.

Responsibilities: Perform quality control inspections and tests on materials products and processes to ensure compliance with project specifications and industry standards. Conduct NonDestructive Testing (NDT) procedures at Level 2 including ultrasonic magnetic particle liquid penetrant and radiographic testing as required. Utilize CSWIP certification to oversee welding inspection activities ensuring adherence to welding procedures and standards. Review engineering drawings specifications and procedures to identify quality requirements and participate in design reviews. Develop and implement quality control plans inspection procedures and test protocols in coordination with project managers and engineering teams. Document inspection results maintain comprehensive records and prepare quality reports for internal and external stakeholders. Investigate nonconformances root causes and corrective actions to prevent recurrence and improve quality processes. Collaborate with suppliers subcontractors and thirdparty inspectors to verify product quality and resolve qualityrelated issues. Provide technical support and guidance to project teams on qualityrelated matters including best practices and quality

improvement initiatives. Stay updated on industry trends regulatory requirements and technological advancements in quality assurance and quality control. Requirements: Bachelors degree in Engineering or a related field. 45 years of experience in quality assurance and quality control within the oil gas or fabrication industry. Certification in NonDestructive Testing (NDT) at Level 2 (e.g. ASNT PCN EN ISO 9712). CSWIP certification for welding inspection (e.g. CSWIP 3.1 CSWIP 3.2) is mandatory. Strong knowledge of international codes and standards relevant to the oil gas and fabrication industry (e.g. API ASME ASTM). Proficiency in conducting NDT techniques such as ultrasonic testing magnetic particle testing liquid penetrant testing and radiographic testing. Excellent analytical skills with the ability to interpret technical drawings specifications and procedures. Effective communication skills with the ability to interact professionally with internal and external stakeholders. Attention to detail and a commitment to maintaining high quality standards. Ability to work independently and collaboratively in a dynamic environment. Salary and Benefits: Salary range: AED per month (depending on experience and qualifications). Health insurance coverage. Transportation & Accommodation is also provided. Annual leave and other benefits as per company policy. Opportunities for professional development and career advancement. Remote Work : No
