

Quality Control Inspector

[Apply Now](#)

Company: NOV

Location: Ras Al-Khaimah

Category: healthcare-practitioners-and-technical

Job Description

Primary Responsibilities:

Day to day inspection and reporting activities.

Work in accordance with ARM QMS and HSE procedures & policies.

Candidate must have been previously certified and experienced with performing MPI and LPI NDT Inspections including evaluating discontinuities and report writing.

Must have documented NDT classroom hours and minimum 5 years NDT experience with these two NDT disciplines.

Perform Brinell and Rockwell hardness tests on raw material and finished machined parts for comparison against Engineering specifications and purchase order requirements for acceptance.

Ensure the traceability of all parts required and documentation trail are in place.

Record and document traceable information which will be required to certify the manufacturing process, to the highest standards.

Interpret API standards and client requirements to ensure the relevant standards

are met in relation to the product.

Accept, reject, or place on hold any item or operation where conformance to drawing, specification, contract and/or purchase order is not being accomplished and render an unbiased decision to accept or reject any material or component to mitigate any business risk.

Work with Document Control Team to complete any documentation required by customer, purchase order, or engineering specifications.

Perform other work-related task as assigned.

Facility/Group Specific Responsibilities

Perform a wide verity of inspection and quality control operations in NDT, hardness, and dimensional, making necessary critical observations, tests, and completing appropriate documentation as required.

Education/Qualifications

High School Diploma or equivalent

NDT Level II for MPI and LPI

Minimum 5 years of dimensional experience

Experience performing hardness tests

The Following Are a Plus

NDT Level II for UT

AWS/CSWIP 3.1 minimum
