Company: ARENGY

Location: dubai

Category: other-general

The job posting is outdated and position may be filled. ARENGY is a Digital and Engineering Services Company operating in the Middle East from Dubai. Our customers are the most successful industry leaders executing projects around the globe. We are partnering with a VIP Airline operating large aircraft as well as business jets based in Dubai. This customer has a permanent position opened for a Quality & Safety Engineer.

Job Description Working as part of the Engineering Quality & Safety team and reporting to the Quality & Safety Manager, the incumbent will contribute towards the effective management of all aspects of the Quality and Safety Management System, in accordance with CAR 145 and CAR M requirements. The role includes active participation in quality and safety oversight, audits, risk assessments, hazard identification, incident investigation, root cause analysis and detailed report writing.

Key Responsibilities Support the maintenance and development of the Operators CAR 145 and CAR M Quality Assurance and Safety Management processes to fulfil UAE GCAA requirements. Conduct audits of internal departments and contracted service providers and prepare detailed reports. Support the administration of the company's IQSMS Quality and Safety Incident Reporting System. Perform root cause analysis of safety related incidents and occurrences and present detailed reports. LAME authorization renewal and extension assessments. Perform periodic aircraft physical surveys and maintenance record reviews.

Requirements At least 5 years experience in similar role. UAE GCAA/EASA Part 66 License holder with type ratings on large transport aircraft. Formal aeronautical maintenance training. Sound understanding of UAE GCAA/EASA Regulations. Airworthiness Review Certificate (ARC) signatory an advantage. Benefits to be disclosed during interview.
